

The Behavioral Health Care Center facility

This facility will bring together new and existing services under one roof to better serve our clients.

This 26,000-sq.-ft. one-story building will include two major areas: a clinical services area and residential facilities.

Clinical services area:

- Primary care suite for a medical doctor, psychiatrist, nurse practitioner, or registered nurse
- Therapy and counseling suite featuring licensed mental health professionals
- Mobile crisis response team suite, for professionals who work on-site and in the community
- Care management suite for staff who work with families to assess, refer, and link to other services

Residential area:

- Four living units, each featuring
 - Five furnished single bedrooms
 - Shared living and activity areas
 - Two private bathrooms
- Nurses office
- Meeting rooms for working with families
- Secure courtyard for outdoor recreation
- Full-service kitchen with dining area for 50
