Camp to Belong

Northern Rivers hosted the 9th annual Camp to Belong, NY event from June 28th-July 3rd at Camp Chingachgook in Lake George. During this week long event, siblings separated through placement in foster care were brought together to participate in a number of signature activities designed to promote the opportunity to share in some natural bonding experiences they may not have had the opportunity to participate in, as a result of their separation. The event was a success, where several young people created memories that will last a lifetime!

Diagnostic Classification of Mental Health and Developmental Disorders of Infancy and Early Childhood (DC:0-5™) : New York State

As part of the Preschool Development Grant Birth through Five Initiative (NYS B5), the New York Center for Child Development (NYCCD) and the New York State Office of Mental Health (OMH) in collaboration with CTAC, are pleased to announce upcoming trainings on the ZERO TO THREE DC:0-5™, *Diagnostic Classification of Mental Health and Developmental Disorders of Infancy and Early Childhood*.

DC:0-5 is a research and clinically-informed multi-axial diagnostic system that provides a comprehensive guide to the clinical disorders found in young children. New York State plans to make DC:0-5 the recommended diagnostic tool for all children birth to age 5.

This comprehensive training is specifically designed for participants who are directly involved in the developmental and mental health evaluation and diagnosis of children birth to five years of age.

This training provides history and background around the need for and development of a specialized diagnostic classification system for infancy and early childhood, as well as approaches to diagnosis from an Infant Mental Health perspective which is developmentally informed, relationship based, contextual and culturally competent.

Participants will learn about the multi-axial classification system and gain an understanding of each: Axis I Clinical Disorders, Axis II Relational Context, Axis III Physical Health Conditions and Considerations, Axis IV Psychosocial Stressors, and Axis V Developmental Competence.

Participants will have the opportunity to participate in Community of Practice calls following the training for support on use of DC:0-5™ in their practice.

Participation in this training is free of charge and participants will receive a complimentary DC:0-5 manual. Lunch will be served on Day 1.

This training will offer 11 CE contact hours for licensed social workers and LMHCs through the NYU Silver School of Social Work. Participants must attend both days to receive full credit. Attendees will be able to access certificates online following the training.

Register early since *capacity is limited*. *Additional trainings will be offered based on demand in each location.*

External Training Cont.

Please register below. **All Trainings are 1.5 days (9am-5pm on Day 1 & 9am-1pm on Day 2:**
